mummichog: BC_vs_Control
красный — q_BH<0.05; оранжевый — только p<0.05
Glycosphingolipid metabolism
C21-steroid hormone biosynthesis and metabolism
Phosphatidylinositol phosphate metabolism
De novo fatty acid biosynthesis
Linoleate metabolism
CoA Catabolism
Saturated fatty acids beta-oxidation
Keratan sulfate biosynthesis
O-Glycan biosynthesis
Glycerophospholipid metabolism
Sialic acid metabolism
Leukotriene metabolism
Drug metabolism - other enzymes
D4&E4-neuroprostanes formation
Porphyrin metabolism
