mummichog: PC_vs_Control
красный — q_BH<0.05; оранжевый — только p<0.05
C21-steroid hormone biosynthesis and metabolism
Methionine and cysteine metabolism
Tryptophan metabolism
Urea cycle/amino group metabolism
Saturated fatty acids beta-oxidation
Vitamin B12 (cyanocobalamin) metabolism
Pyrimidine metabolism
D4&E4-neuroprostanes formation
Linoleate metabolism
Biopterin metabolism
De novo fatty acid biosynthesis
Limonene and pinene degradation
Glutathione Metabolism
Xenobiotics metabolism
Hyaluronan Metabolism
